Jurisprudence

Question 1 of 25 Practice Statements

Domain: Professionalism
References: Professional Practice Handbook for Dietitians in Alberta, Chapter 1 Professionalism

Case:
A "practice statement":

- is similar to a "scope of practice" statement.
- outlines the location where a professional is entitled to practice.
- is a description of the services provided by a health profession regulated under the Health Professions Act.
- answers a and c only.

Correct
The services that health professionals provide are sometimes referred to as the "scope of practice" of the profession; these are defined in legislation. Under the HPA in Alberta, descriptions of services provided by each health profession are referred to as "practice statements". The statements describe in plain language, the day-to-day practice of members of a profession and inform the public of the type of services that they can expect a profession to provide.
